Project #09307 – Student Funding to Attend TRB Conference

Students from the three campuses of The University of Alabama System are engaged in a variety of transportation-related research activities. This project intends to provide a mechanism to (1) identify deserving transportation students; (2) establish a forum for the students to present the results of their research to transportation professionals, faculty, and other student in a professional setting; and (3) allow the student to expand their education. The mechanism for identifying appropriate students is through submittals of abstracts of student work. Faculty from the three campuses and possibly members of the UTCA Advisory Board will evaluate the abstracts and identify students deserving of making technical presentations. The forum for student presentations will be facilitated through the UTCA Transportation Research Symposium. Finally, students will be able to expand their knowledge of important transportation topics by attending the annual meeting of the Transportation Research Board in Washington, DC.

Start Date: October 1, 2009
End Date: February 28, 2010
Total Budget: $32,238

Principal Investigator:
Dr. Michael D. Anderson
Department of Civil and Environmental Engineering
The University of Alabama in Huntsville
Huntsville, AL 35899
