The objective of the proposed project is to incorporate mini-roundabouts into the ALDOT Roundabout Design and Operation Manual. It is intended to ensure consistency across the State in the implementation of mini-roundabouts at new installations and in the case of retrofit/redesign of existing intersections.

The project will comprise the development of a chapter on mini-roundabouts for inclusion in to the latest version of the ALDOT Roundabout Design and Operations Manual. The project will also include the development training materials related to mini-roundabouts for delivery at future roundabout training sponsored by (or conducted on behalf) of ALDOT.

Start Date: 05/01/2016
End Date: 09/30/2016
Status: Active
Contract/Grant Number: GR25540
UTCA Project #16401, OSP #16-0512
Total Dollars: $22,075.00
